EAST BAY EXPRESS

IF THIS IS NOT A CONTEST IF THIS IS A WORLD-WIDE CHALLENGE IF JOIN US

What's stopping you? Nothing. February is Record Production Month. You have no reason to stop now and nothing to lose.

Turn off your gear. Set aside all distractions. Get the band back together. And get to work creating new music!

The RPM Challenge is simple! Record an album in 28 days. Just because you can. That's 28 songs or 28 minutes of original material recorded during the month of February.

Last year, over 20 Bay Area bands participated, and the momentum is quickly growing!

To participate or learn more, visit our website: www.RPMChallenge.com

On Feb. March 1st at the Uptown Nightclub, 2000 Telegraph Oakland (8:00-12:00) we give away \$1000 to the band whose album is played.

See you there!

the 1990s, and the 1990s have been a period of rapid growth in the number of people who are using the Internet. The number of people who use the Internet has increased from 1.5 million in 1990 to 15 million in 1995. This growth has been driven by a number of factors, including the increasing availability of computers and the Internet, the increasing popularity of the World Wide Web, and the increasing use of the Internet for business and education. The growth of the Internet has also led to the development of new services and applications, such as e-mail, web browsing, and online shopping. The Internet has become an integral part of our lives, and its use is expected to continue to grow in the future.
